---

Motivated Junior Front-End Developer with hands-on experience in building responsive, user-friendly web applications using **React**, **HTML**, **CSS**, and **JavaScript**. Strong understanding of modern UI design, component-based architecture, and version control with Git. Passionate about writing clean code, solving real-world problems, and continuously improving through collaboration and learning.

## SKILLS

---

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript (basic), jQuery
- **Frameworks/Libraries:** React, Node.js (basic), Bootstrap
- **Others:** Responsive Design, API Integration, DOM Manipulation
- **Tools:** Git, GitHub, npm, VS Code
- **Soft Skills:** Problem-solving, Communication, Remote collaboration, Time management

## PROJECTS & PORTFOLIO

---

### QR Code Generator App

- Built with **React** and qrcode **npm** package
- **Mobile-friendly UI** for generating QR codes from user input

### Tic-Tac-Toe Game

- Built with **React** using **state** management and functional components.
- Two-player game using React with game history, win/draw detection, and player name customization

### E-Commerce Web App – *React, Tailwind CSS, JavaScript*

- Built a fully responsive e-commerce UI with product filters, cart features, and API integration.
- Focused on mobile-first design and state management using React hooks.

## EXPERIENCE

---

### Junior Front end development

Jan 2019 – Dec 2024

VTalent Global Software Services, India

- Developed responsive and accessible web pages using **React** and **tailwind CSS**, improving user experience across multiple projects.
- Collaborated with designers and backend developers to implement UI features, ensuring seamless integration and consistent design.

- Created reusable **React** components and managed state using hooks to build dynamic and interactive web applications.
- Troubleshoot and resolved frontend bugs, optimized page load times, and enhanced overall application performance.
- Participated actively in Agile ceremonies including daily stand-ups, sprint planning, and retrospectives, contributing ideas for process improvements.
- Maintained project documentation and followed version control best practices using **Git** and **GitHub**.

#### Front end development- internship

June 2017 – Aug 2018

VTalent Global Software Services, India

- Supported senior developers by creating basic web page layouts using **HTML** and **CSS** to build foundational UI components.
- Assisted in troubleshooting simple bugs and performing minor UI updates under supervision.
- Learned to use **JavaScript** for adding interactivity to web pages through guided tasks.
- Participated in team meetings and sprint planning to understand Agile development workflows.
- Gained exposure to version control systems, primarily **Git**, by contributing small code changes and managing branches.
- Utilized browser developer tools to debug and test code, improving problem-solving skills in real-time scenarios.

### Education

---

#### Bachelor of Computer Applications (BCA)

Gujarat University, Ahmedabad, Gujarat

2015
